EV/Hybrid stickers coming soon

Beginning June 27th, the department will require APPS agents to begin issuing EV / Hybrid (EVH) stickers with license plates registered to electric or hybrid vehicles. A processing modal will prompt agents when to begin issuing the EVH stickers to customers.

The department began mailing EVH sticker inventory to qualifying organizations at the beginning of April in anticipation of the June 27th go live date. Stickers will be mailed separately for qualifying vehicles prior to June 27th.

Do not issue EVH stickers until you receive notification to do so.

EVH sticker inventory ordering will be available to qualifying organizations after June 27th.

Sticker Placement

For standard-sized license plates (e.g. auto, light truck, etc.): place a sticker on the upper-right corner of each plate, to the right of the bolt holes.

For cycles, mopeds and similar non-standard sized plates: place a sticker in the upper-right corner, just to the left of the bolt holes.

Pended transactions with temporary license plates

The department has seen an increase in the amount of standalone temporary license plates issued *after* a title and registration transaction has been pended. Issuing a temporary plate after your transaction is pended updates the vehicle record and may leave your organization unable to update, complete, or reset the pended transaction.

If an error was made on a pended application or it cannot be completed electronically, the application should be reset prior to issuing a standalone temp plate.

If a temporary license plate was issued *with* a transaction that was pended, the temporary plate will remain valid after the title and registration application has been **reset** and can be reprinted.

If you discover an error and cannot reset/delete the application, contact the Agent Partnership Unit at (608) 266-3566 for assistance.

When do I need to use secured paper?

Forms used for odometer disclosure must be printed on secured paper. These include:

- MV11 Wisconsin Title and License Plate Application
- MV2690 Power of Attorney, Vehicle Odometer Disclosure
- MV2488 Vehicle Transfer and Odometer Mileage Statement

“Secured paper” means any type of paper that incorporates features to deter and/or detect counterfeiting or unauthorized reproduction.

The image shows a sample of the MV11 Wisconsin Title and License Plate Application form. The form is titled "WISCONSIN TITLE & LICENSE PLATE APPLICATION" and "MV11-1 8/2023". It includes a QR code and a "Title No." field. The form is divided into several sections, including "Section A - New Vehicle Owner Information". The form contains various fields for personal and vehicle information, including Social Security Numbers, Driver License Numbers, and addresses. The form is designed to be printed on secured paper.

The MV11 Wisconsin Title and License Plate Application is one of many documents that require printing on secured paper.

Quarterly Report

The following numbers have been generated from the Dealer and Agent Section (DAS) Quarterly Report. This data is from the **third quarter** of the fiscal year beginning July 2023 (January through March 2024).

Electronic Title and Registration Processing

Dealers and agents processing titles and/or registration electronically.

| Activity | Third Quarter |
|--|---------------|
| Renewal agents | 1,602 |
| Title and lien agents (includes dealerships) | 4,777 |

Electronic Title Delivery

Lenders receiving electronic title records.

| Activity | Third Quarter |
|----------|---------------|
| Lenders | 1,313 |
